

Delock 5.25" Mobile Rack for 4 x 2.5" SATA / SAS HDD / SSD 12 Gb/s

Description

This mobile rack by Delock can be installed into a free 5.25" bay of a desktop PC and enables the operation of up to four 2.5" SATA or SAS hard drives.

Quick change of hard drives

Due to the special mechanism, the hard disks can be exchanged quickly and easily. For example, data backups can be taken and stored in a safe place.

Protection against theft

Each of the four removable frames is provided with a separate lock. Thus, the hard disks and data can be protected against theft and misuse.

Operation with SATA controller

This mobile rack by Delock can also be used on motherboards with SATA controllers.

With the Delock item 83320, the Mini SAS HD port on the mobile rack can be connected to four free SATA ports of the motherboard and allows the use of up to four SATA HDDs.

Note

- It is not possible to use SAS hard disks with a SATA controller.
