

InLine® HDMI Cable High Speed male + ferrite black 1m

17621

HDMI is the newest standard in the area of Home cinema, multimedia and PC entertainment. This interface is to transfer pictures, data and sound digitally over one medium. Besides, HDMI is with DVI compatible what allows, e.g., the direct transfer von dvd-player signals to the screens of a TFT (only video-signals). HDMI is a very fast interface with up to 5 GB/ s(!).
