Canyon WS-304 charging station can set you free from the chaos of charging cables. Due to foldable design it is very compact and you can easily take it in a trip. It works with most smartphones and all the devices compliant to the Qi standard, including iPhone, Apple Watch, and AirPods. It is a 3-in-1 station, so all your devices will fit onto the charging surfaces neatly thanks to its clever design. By the way, feel free to place your smartphone in any orientation you'd like and continue to use it. Effective charging distance is up to 8mm, so you can keep the cases on. The Chipvision intelligent chipset supports Quick Charge, effectively controls the charging parameters and prevents overheating. An anti-slip coating ensures the protection for your devices, and an LED ambient light allows you to control the situation just by a quick glance. Get it now and get rid of the annoying wires!
