TRACER USB HUB H40 with a
USB-C connector
TRAPOD46999

DESCRIPTION

TRACER USB HUB H40 with a USB-C connector

Have you ever come across a computer with too few USB ports? Or maybe all USB ports on your laptop are already taken? The Tracer USB HUB will help you solve this problem as it provides you with additional USB ports to connect more devices than your existing USB ports allow. Choose HUB Tracer H40 to enjoy fast and stable data transfer.

- Connection with a computer via the USB-C 3.0 port.
- 3 x USB 2.0 ports.
- 1 x USB 3.0 port.
- Robust aluminum casing.
- LED indicator.
- No need to install drivers.

Boost your computer

Modern laptops available on the market have a small number of USB ports to which peripheral devices can be

connected. This can be problematic if you want to use several peripherals at the same time. The TRACER HUB will help you resolve this obstacle. You can now connect additional devices to 4 extra USB ports. With USB 3.0 technology, you can also transfer data 10 times faster than before.

Plug in and go.

The TRACER HUB is up and running as soon it is connected to the USB-C port. No driver or additional software is needed, the device is ready to work right after it is plugged in to the computer. The Tracer H40 HUB is equipped with a LED to signal the status of the device.

A small gadget

The TRACER HUB is a small device so that you can always have it with you. Silver colors and an aluminum casing match most laptops available on the market. Made of high-quality materials for a long lifespan.

KUP: HUB TRACER USB 3.0 H40 4 ports, USB-C (<https://emavo.pl/.html>)
