**ERGO™ Superior Tenon Saws for
Plastics/Laminates/Wood/Soft
Metals**

PRODUCT DETAILS

- Handsaw developed according to the scientific ERGO™ process
- Handsaw for cutting fine to medium-thick wood materials
- Unique XT-teething, hardpoint teeth for long-lasting sharpness
- Ergonomic and well-balanced product, designed to fit perfectly in the hand with superior handling and comfort when sawing
- Screwed three-component handle can be used for approximate 45° and 90° marking guide
- Superior™ sawblades to create a flexible system for all professional handsaw users
- Thicker blade for increased stability and precision
- Low-friction, rust-protective coating
- Maximum comfort with minimum effort due to the ergonomic design
- Comfortable three-component handle giving an excellent grip with 45° and 90° marking guide
- Longer lasting sharpness from the unique hardpoint XT teething
- Increased stability and accurate cutting from the thicker blade
- Easier cutting from the low-friction rust-preventative coating
- For the cutting of small-section timber and mitre guide sawing
