HDMI Splitter 1x2 (4K@60Hz)

Vivolink VLHDMISP1X2 video splitter HDMI 2x HDMI:

The VLHDMISP1X2 is a high-performance 1x2 HDMI splitter designed to distribute a single HDMI input to two outputs simultaneously. It supports video resolutions up to 4K@60Hz with 4:4:4 chroma subsampling, HDR10, and Dolby Vision, ensuring exceptional video quality.

Key features include advanced EDID management with multiple built-in settings selectable via a 4-pin DIP switch, video resolution down-scaling allowing 4K input to be automatically degraded to 1080p output for compatibility with 1080p displays, and support for CEC pass-through. The splitter also provides LEDs to indicate the current operating status and supports convenient firmware upgrades through a Micro-USB port.

Typical Applications:

Ideal for distributing HDMI signals to multiple displays in retail environments, trade shows, or any setting requiring high-quality video output to multiple screens.
