Easy smart lighting

The Philips Hue lustre P45 E14 bulb lets you integrate your smallest lamps and fixtures into your Philips Hue smart lighting system. About the size of a golf ball, the lustre bulb fits where other, longer E14 bulbs can't. Available in White, White ambiance, or White and colour ambiance, the lustre bulb brings millions of shades of white and colour light to any area of your home.

Limitless possibilities

- Get the perfect fit, even in the smallest sockets

Easy smart lighting

- Control up to 10 lights with the Bluetooth app
- Control lights with your voice*
- Set the right mood with warm to cool white light
- Unlock the full suite of smart lighting features with the Bridge

Highlights

Get the perfect fit, even in the smallest sockets

Nearly 30 mm shorter in length than a Philips Hue candle bulb, the lustre bulb is the smallest smart bulb in the Philips Hue collection. About the size of a golf ball, its size and shape fit even the smallest lamps and fixtures in your home, such as table or desk lamps.

Set the right mood with warm to cool white light

These bulbs and light fixtures offer different shades of warm to cool white light. With complete dimmability from bright to low nightlights, you can tune your lights to the perfect shade and brightness of light for your daily needs.

Control up to 10 lights with the Bluetooth app

With the Hue Bluetooth app, you can control your Hue smart lights in a single room of your home. Add up to 10 smart lights and control them all with just the touch of a button on your mobile device.

Unlock the full suite of smart lighting features with the Bridge

The Bridge unlocks the features that make smart lighting truly smart – away-from-home control, voice control, automated lighting and much more. Add a Bridge to your setup to create immersive experiences, tap into technology that's secure and reliable, and more. The Bridge is the key to smart lighting like you've never seen before.

Control lights with your voice*

Philips Hue works with Amazon Alexa and the Google Assistant when paired with a compatible Google Nest or Amazon Echo device. Simple voice commands allow you to control multiple lights in a room, or just a single lamp.
